Your above ground pool has been designed to provide years of safe, family fun. This means that water safety must always be practiced. When used incorrectly, your above ground pool can be dangerous. It is shallow, which makes diving and jumping into the pool unsafe and could lead to severe injury or death. To ensure your above ground pool is used safely, please observe all safety precautions that were provided when you purchased your pool. You must conform to all local regulations. The dimensions, weights, illustrations and other specifications are approximate. The company reserves the right to modify and/or discontinue any feature in any pool model without notification. © Copyright 2021 MLDSMG0921
